Hi Patricia,

Can you please review question number of one of this SOP. There is no mention of "Par ships control substances on Friday", therefore can you please reevaluated it and submit the appropriate update to Lisa.

Thank you.

IV. PROCEDURE

Par's Trade customers transmit Controlled Purchase Orders via EDI and minimal Purchase Orders come in via fax/scan-email.

Weekly replenishment Purchase Orders are analyzed by Account Service Executives versus Customer provided usages.

If quantities are higher than the average transmission it is questioned.

The Buyer is contacted to review, a written request is asked as to the reason for the increase.

It is reviewed to ensure it is correct and warranted.

Seasonal changes are monitored if applicable to the product.

Monthly reports are generated by Account Services and sent to Quality Compliance for submission to the DEA on a quarterly basis; only for CII and CIII Narcotic products.

Par's top Trade Customers were asked to sign a document stating usages.

Customer Usage grids are created for each controlled drug distributed as a benchmark to monitor Customer Purchase Orders.

Customers may have a change in usage when reported or uncovered grid would then get updated to reflect accordingly.

Controlled Substance product launch

100% audit conducted for all customers purchasing product before it ships for the first time.
